### Short Description

TDH28WE has a total of 16 programs, and the option of time management. When using the electronic programs, the machine never runs longer than necessary when the clothes are dry, which saves both time and energy. Furthermore, it is possible to save your favorite program, (My Cycle) so that it can easily be selected when you want to use it. The refresher program refreshes the clothes with cold air and is ideal for removing air in the clothes.

The lint filter is in the opening of the hatch and is therefore easily accessible when it needs to be cleaned.

The machine's panel has symbols and Danish text but panel sticker follows in English
