Short Description

Refrigerator/freezer with SmartFrost which does not form as much frost as a traditional freezer system does. Typically, you only need to defrost once a year, compared to the 4 times recommended for traditional freezers. The freezer drawers have transparent fronts, making it easy to see what's inside the freezer.

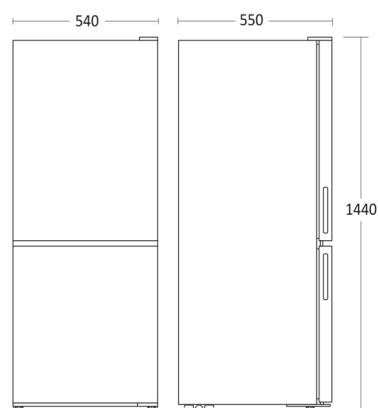

The fridge is equipped with energy-saving LED lighting for a better overview. The fridge also comes with a large transparent vegetable drawer that provides ample space for fruit and vegetables, while showing what the drawer is storing.

The fridge has 2+1 adjustable glass shelves, creating a flexible layout that you can easily adapt to your needs. The combi fridge is designed in a classic and stylish design and with the possibility of turning the door, the cabinet fits into most interiors.

Key features

- SmartFrost - limits frost in your freezer
- Removable glass shelves create a large space
- Adjustable and break safe glass shelves
- Reversible door with integrated handle
- Energy-saving LED lighting
